Figure 1.0: Javascript error caused by Internet Explorer 11.

Due to the inherent design of Microsoft Internet Explorer 11 (IE11), users using this internet browser will experience "Javascript" errors (Figure 1.0) which prevent APCS3 Pass Application from functioning properly.

This issue can be resolved by adding APCS3 website as a "Trusted Site" in IE11. Please refer to instructions below for steps.

**Step 1: Open "Tools" menu by clicking on "gear" icon located at top right hand corner of Internet Explorer.**

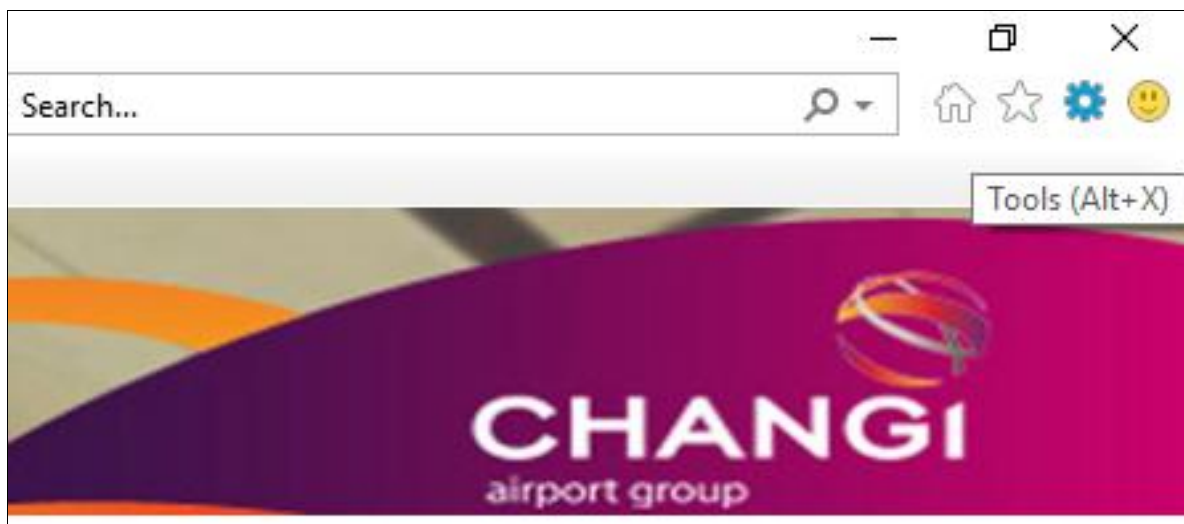

Figure 1.1: Open "Tools" menu within IE11
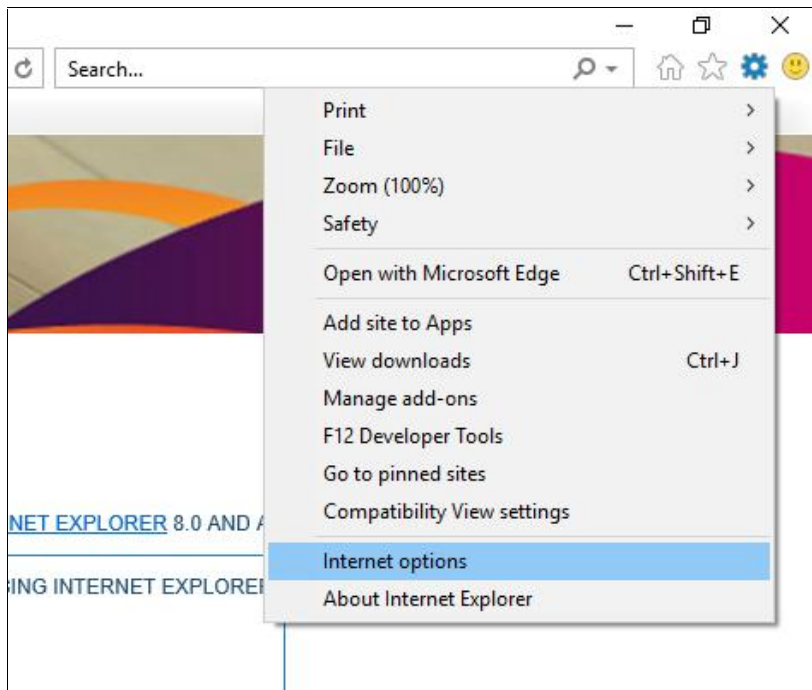

**Step 2: Click on "Internet options"**

Figure 1.2: Select "Internet options".

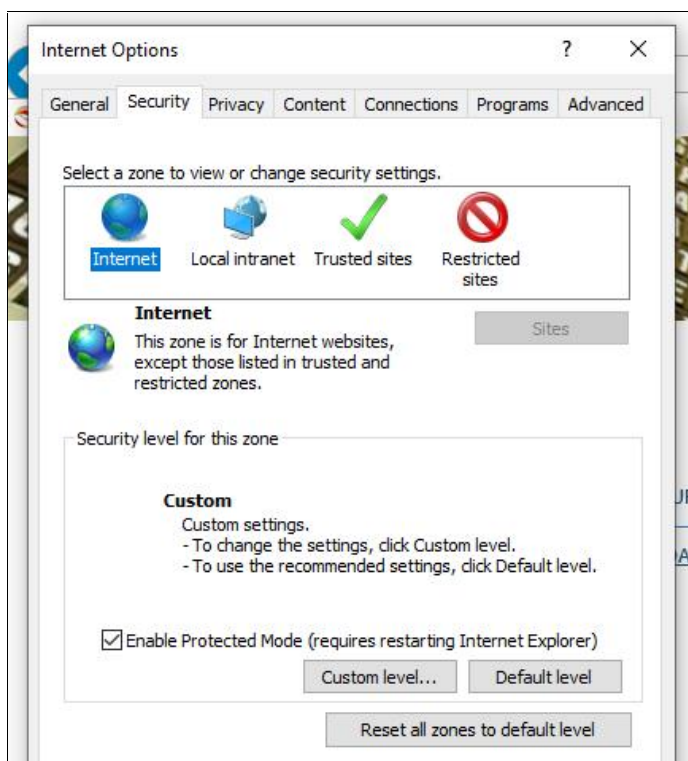

**Step 3: Select "Security" tab**

Figure 1.3: Select "Security" tab.
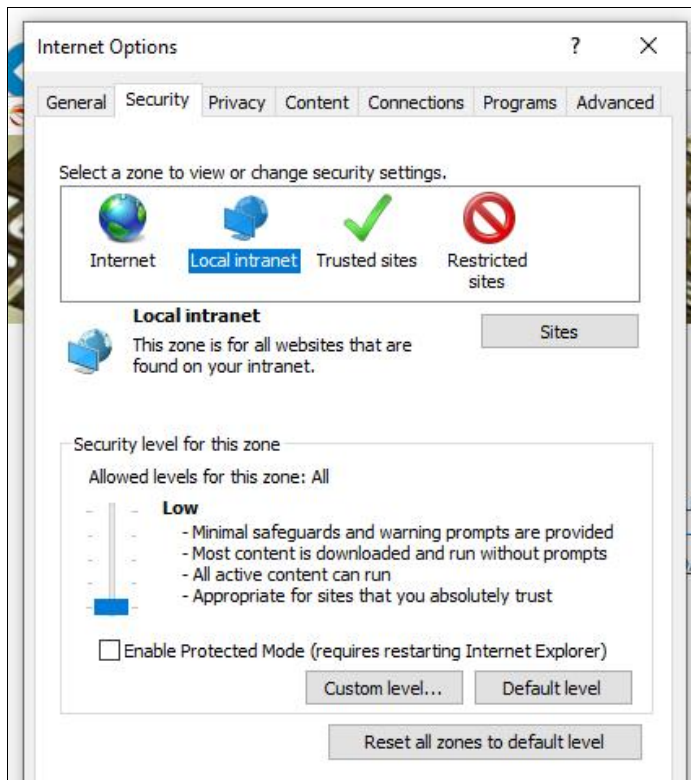

**Step 4: Click on "Local Intranet" icon.**

Figure 1.4: Select "Local intranet".
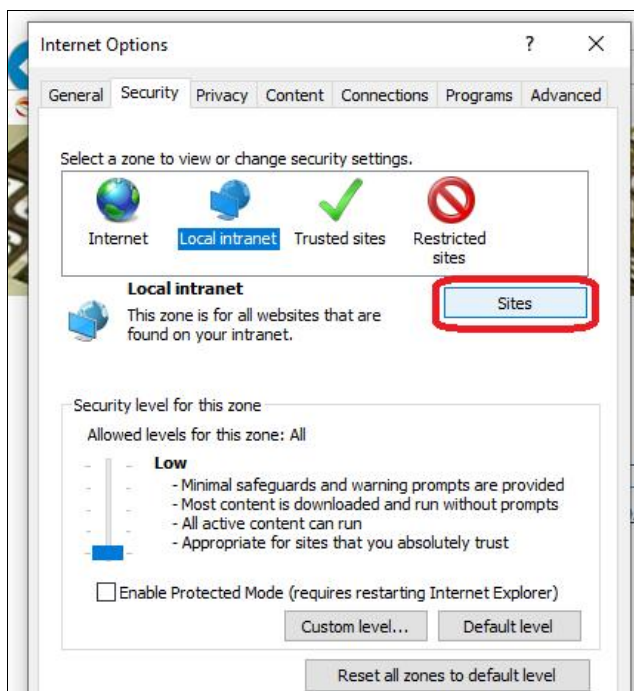

**Step 5: Click on "Sites" button.**

Figure 1.5: Open "Sites" menu.
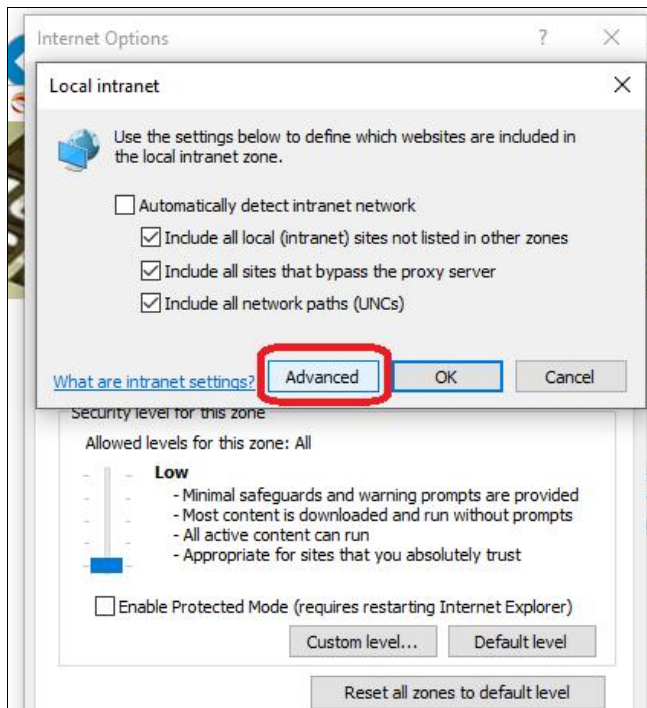

**Step 6: Click on "Advanced" button.**

Figure 1.6: Open "Advanced" menu.

**Step 7: Add URL of APCS3 Pass Application website (https://apcs3.changiairport.com) and then click on "Add" button.**

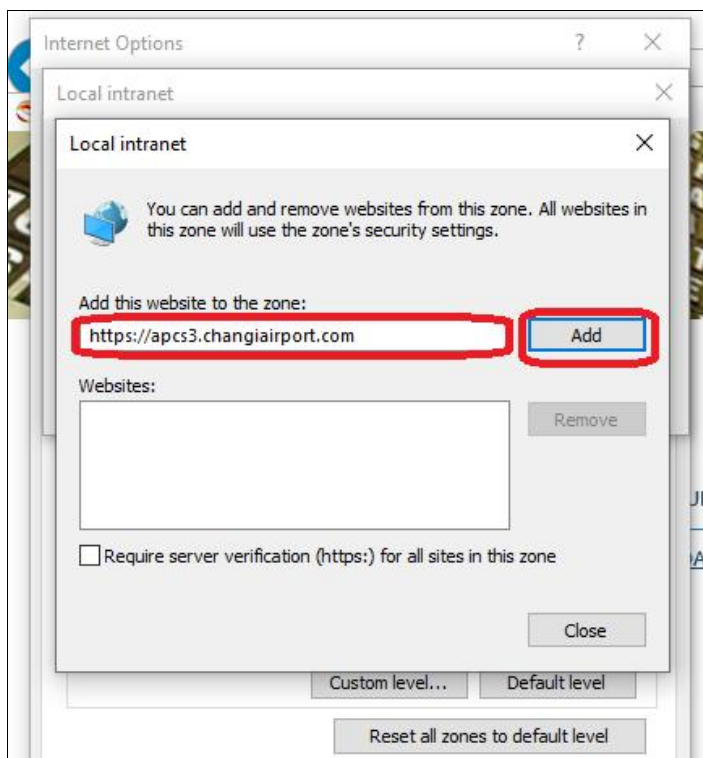

Figure 1.7: Add https://apcs3.changiairport.com as a trusted site.

**Step 8: URL of APCS3 Pass Application be added to "Websites" after clicking on "Add" button. Click on "Close" to save and exit.**

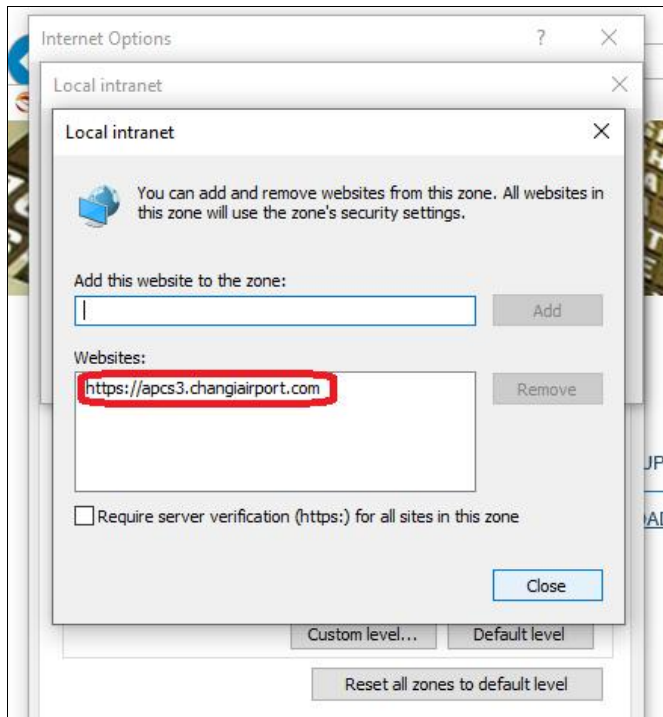

Figure 1.8: https://apcs3.changiairport.com added as a trusted site.
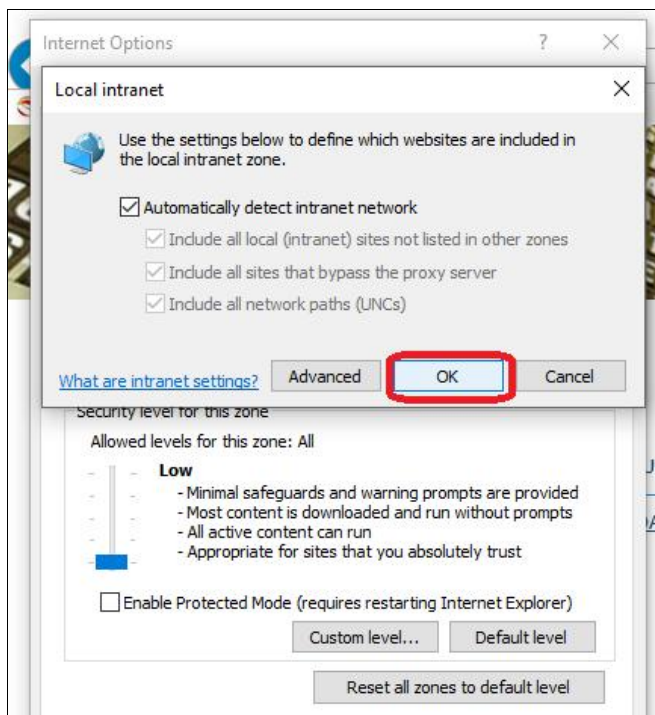

**Step 9: Click on "OK" to save and exit.**
